Rapid City Sewer Maintenance

The RM of Oakview has contracted GW Vacuum Truck Service to complete sewer line flushing within the town of Rapid City.

When: Starts the morning of Tuesday, August 16th

Why: Excessive spring rains have caused gravel, silt & debris to wash into the sewer system

Where: Starting West of 270

You may experience a sewer smell or sewer back up in your home as a result of this service. Please call the office at 204-826-2515 or 204-566-2146 to report any issues.

High pressure flushing equipment can cause the water in your sinks, showers, floor drains and toilets to either be sucked down the drain or be splashed out. Please place plugs in all open drains and close all toilet seat covers to prevent any undesirable issues.

We apologize for any inconvenience this may cause and appreciate your patience as we conduct this necessary maintenance
